

**Winnetka Public Schools District 36
2007-2008**

Technology Development Chart for Grades K-8

District Technology Vision: The Winnetka Public Schools District is guided by its commitment to consider each child as a whole person and a life-long learner. The significant role of technology in our society compels us to create a learning environment that develops our ability to use technology while constructing knowledge, problem solving, and making decisions about our world.
